

Novomatic 553

Remote Control Garage Door Opener

5 year
Warranty*

Garage door automation has never been easier.

The Novomatic 553 opener is designed for up and over and sectional garage doors. The ultra-reliable, near silent belt drive operator incorporates a courtesy light and internal quick release. The opener can be enhanced with extra handsets, mini wall mounted push button controllers, key switches and coded keypads.

Novomatic 553

...one powerful automatic unit suitable for sectional and up & over garage doors.

Novomatic features at a glance:

- 700N max push/pull force
- Simple operation
- Soft start and soft stop function
- Integrated shutdown stopping device and electronically monitored push-up safeguard
- Adjustable opening time from 10 to 240 seconds
- Programmable inside lighting and connectable outside lighting
- Two hand transmitters included as standard
- Power economiser
- Manual quick unlocking device in case of power cut etc.

It runs and runs and runs

The wear resistant top-quality toothed belt in a hot galvanised steel profile ensures quiet and smooth running and long-term, reliable garage door operation. The toothed belt is reinforced on the inside with fivefold steel cables, oil and acid resistant and completely maintenance-free.

Practical – which ever way you turn it

The flat operator head of the Novomatic can be turned by 90° or 180° if required. This saves up to 15cm space when the slide-in depth is, for example, reduced due to a wall construction. The operator track does not have to be additionally shortened either.

Programming made easy

Novomatic can be conveniently and easily programmed with three buttons and a concise 7 segment display. No setting can be overlooked during programming thanks to the systematic menu navigation. All settings are infinitely saved, even in case of a power cut. The operating state is always recognisable through the transparent cover. Clear error coding allows for a quick and safe fault analysis if required.

- Not much room? Drive unit fits at 90°
- Simple programmable button technology

- Ultra reliable, super smooth belt drive
- Automatic stop and reverse on contact with obstruction.

- Enhance your system with extra handsets, keypad controls and key switch operation.

- **Novomatic 553B**
Complete with a genuine battery back-up system that will allow up to 8 operations. Available as an optional extra.
